NEWSLETTER FEB 2009

This month, our spotlight is on...

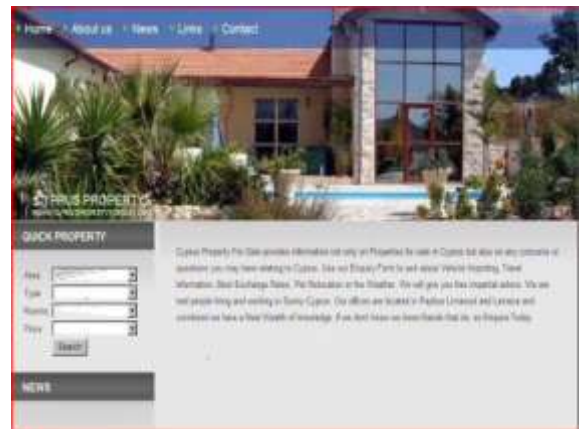

Our New Years 2009 Goals

This month sees another re launch: www.cypruspropertyforsale.org plus the arrival of Alexander Marr our new associate German, Russian and English speaker and winner of the Mein Neuer Job in Cyprus programme aired earlier this year in mainland Germany on Cable One T.V.

Our goals this year predominantly revolve around diversifying further into alternative property markets and ability to converse in three languages combined with a prominent internet presence in those markets. The aim is to stay comfortably in business and counteract the downturn and decreased enquiries from the U.K market. The belief is we are the right sized company, and with our established Village Property business combined with our new Russian and German expertise we are well positioned in the current market.

Of course www.kaimarconsulting.com remains our premier website, and at the heart. what we have noticed is that even though the number of enquiries from the U.K has decreased, the quality of the U.K enquiries has increased. The "Crunch" has had a positive effect in pre qualifying our sales leads.... We believe that people will always want to move to Cyprus and Leave U.K. There will always be a demand. So this year more so than ever we will endeavour to cater for all our customers, from any country, with any budget and requirements. If we don't know the answers you can bet your bottom Euro that we know someone who does. So whilst this year may be quieter than last year we will keep ourselves busy looking after our most important people Our Clients.
